Subject: RE: Eligibility Question

Code Section 31-2A-36(a) states that "in order to be considered for a grant under this article, each direct service provider shall: (1) Be a nonprofit organization incorporated in this state with a tax-exempt status pursuant to Section 501(c)(3) of the internal Revenue Code of 1986; ..." That plainly rules out "an organization who is not incorporated in the state of Georgia but who is doing business in Georgia."

I don't know what is meant by "an organization who is doing business (DBA) under another non-profit." If means a non-profit organization that is incorporated in Georgia with 501(c)(3) status, and which does business with the public under a name other than its official corporate name, then it would be eligible.

Hi Diane,

Would an organization who is not incorporated in the state of Georgia but who is doing business in Georgia or one who is doing business (DBA) under another non-profit be eligible fo our grant? I'm sure our questions will increase this first round until we get a good working flow!

Thanks,
